Presentation at 6:00 p.m. MST.
The same material will be presented at both meetings.

The Arizona Department of Transportation (ADOT), and the Federal Highway Administration (FHWA) as lead federal agency, are conducting studies to identify and evaluate alternatives for the widening of Interstate 17 between the New River Traffic Interchange (TI) at Milepost (MP) 232 and the Cordes Junction TI at MP 262. The community is invited to attend a public meeting to provide input on alternatives under consideration.

The National Environmental Policy Act (NEPA) outlines the process by which federal agencies integrate public comments and environmental concerns into the decisions they make.

Representatives of ADOT and its consulting team will be available to provide information, answer questions, and discuss the project with the community. The purpose of this public meeting is to gather community input in accordance with the NEPA process. A presentation will begin at 6:00 p.m., followed by community input on alternatives under consideration.

This event is not a school sponsored activity.
