
610 TRAFFIC SIGNAL REQUESTS

A request for a traffic signal can be initiated from within ADOT, a local government, a public official, or a citizen. The request can be for a new traffic signal or for modifications to an existing signal, such as the addition of left-turn phasing.

Section 611 establishes a uniform procedure for evaluating the need for a new traffic signal as well as establishing a uniform policy on coordination and funding with local agencies.

Section 612 establishes guidelines for evaluating the need for left-turn phasing.

Section 613 establishes a uniform procedure for evaluating the need for special access traffic signals and to establish a uniform policy on the funding of special access traffic signals and related geometric modifications.

Section 614 establishes a priority for scheduling the funding and installation of traffic signals.
