## Traffic Design

### MEMORANDUM

**To:** All Users of Traffic Group's Standard Drawings for Signing & Marking and Standard Drawings for Traffic Signals & Lighting

**From:** Mike Manthey, P.E.  
State Traffic Engineer

**Date:** November 1, 2006

**Subject:** Updates to Standard Drawings M-25, M-29, S-7, and T.S. 4-9 and addition of T.S. 2-7

Please find enclosed updates and an addition to Traffic Group's Standard Drawings for Signing & Marking and Standard Drawings for Traffic Signals & Lighting:

- M-25 Changed Note 7 from a unit weight of 2 LBS./FT to 1.21 LBS./FT
- M-29 Updated notes to reflect current standard drawing nomenclature
- S-7 Modified note regarding clamping of auxiliary signs
- T.S. 4-9 Changed Detail "C" to Detail "A"
- T.S. 2-7 Added new drawing

The updated drawings may also be found at: <http://www.azdot.gov/highways/traffic/Standards.asp>

Questions regarding this update may be directed to Scott Orrahood at (602) 712-7800.
