**NOTE: The drop in counts of driver licenses issued between FY 1999 and FY 2000 was due to the change from a five-year driver license to an "extended driver license" where expiration occurs on the licensee's 65th birthday. Although the extended driver license was fully implemented at all offices in July 1993, it was not until the end of 1999 that the last of the licenses with five-year expirations were converted to extended licenses.
