CONTROLLER CABINET FOUNDATION
(Top View)

ANCHOR BOLT ONLY LAYOUT FOUNDATION
(Top View of Foundation)

NOTES:
1. All material and construction shall conform to the requirements of the Specifications.
2. Unstable soil and/or steep slopes may require a deeper foundation. Cabinets shall not be located in drainage areas, unless they are elevated.
3. All conduits shown shall be furnished and installed in foundation. See individual plan sheets for stub-out direction.
4. Anchor bolts shall be galvanized steel, ¾" x 12" x 4" or 5", complete with nuts and washers. Anchor bolts shall project a minimum of 1½" and a maximum of 2½" above foundation.
5. The contractor shall note that the conduit and anchor bolt layout dimensions are extremely critical and shall be adhered to due to cabinet placement.
6. Use an approved silicon sealant RTV type, Gray in color or clear, between cabinet and foundation.
7. Conduits shall project 2" to 4" above surface of foundation. Conduits shall be capped.

NOT TO SCALE
