• Q&A
**Project Overview**

- Project spans 11 miles (1.3 miles within city of Scottsdale)
- Boundaries are from Shea Boulevard to the Loop 202 Interchange
- New general-purpose lanes will be constructed
The project will provide the following improvements:

- Add one general-purpose lane in each direction.
- Add two general-purpose lanes in the northbound direction from McDowell Road to Loop 101/Loop 202 TI entrance ramp.
- Add auxiliary lanes in each direction between Indian Bend Road and McDonald Drive.
Project Purpose

- Improve freeway capacity
- Reduce congestion of future traffic volumes
- Improve traffic flow at Loop 202 to northbound Loop 101
- Implement Regional Transportation Plan
Project Schedule

• Final Design Concept Report – complete

• Final Environmental Document – complete

• Stage II Design – December 2011

• Final Design – fiscal year 2012

• Construction – fiscal year 2014
Project History

• Regional Transportation Plan
• Public Outreach
• Design Concept Report
• Environmental Document
Current Activity

- Stage II Design (30%)
  - Roadway
  - Traffic analysis
  - Structural design
  - Drainage design
  - Utilities
  - Landscaping
