

US 60 - Wenden to Aguila

PAVEMENT AND BRIDGE IMPROVEMENT PROJECT

OVERVIEW

The Arizona Department of Transportation in conjunction with the Federal Highway Administration is planning to make roadway and bridge improvements along a 23-mile stretch of US 60 between the communities of Wenden and Aguila. The improvements and repairs include: milling and replacing existing pavement, applying a chip-seal coat in various sections of the roadway, building up the roadway shoulder with pavement millings and replacing existing bridge barrier and guardrail.

WHAT TO EXPECT

- ▶ During construction, ADOT will maintain one through lane of traffic in each direction except during occasional short-term closures. Flaggers will be on site when temporary closures are required. ADOT will maintain access to homes and businesses throughout construction.
